(Including starting materials produced with fibres with flame retardant properties accepted by OEKO-TEX®). tested and certified according to STANDARD 100 by OEKO-TEX® – Supplement „Special Articles“**

Corresponding to the special conditions of the STANDARD 100 by OEKO-TEX® – Supplement „Special Articles“ various components of the above mentioned article(s) were tested for the compliance with requirements of the STANDARD 100 by OEKO-TEX®.

The tests, that were performed according to STANDARD 100 by OEKO-TEX® – Supplement „Special Articles“, have shown that the, according to the standard, tested article components meet the human-ecological requirements of the STANDARD 100 by OEKO-TEX® presently established for **product class II** (products with direct contact to skin). With regard to the not tested article components not any statement can be made.

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the OEKO-TEX® mark „Special Articles“ only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

It is the sole responsibility of the certificate holder to ensure that all components of the special article(s) and the finished, market-ready end product itself meet the necessary statutory requirements or also special requirements of customers/business partners.

**The certificate 7703CIT is valid until 30.09.2018**
